

ScanAlert™

TESTED DAILY

01-JAN

## CORPORATE OVERVIEW

Since the company's founding in 2001, ScanAlert's HACKER SAFE® certification service has become the world's most viewed web site security trustmark. The company's patent pending security technology is used by over 75,000 web sites, including over half of the Internet Retailer Top 500, to protect them from hackers and certify their security to their customers and business partners. The world's largest provider of PCI compliance services, ScanAlert operates validation programs, through partners such as Visa International, the Council of Better Business Bureaus and CyberSource, to manage the enrollment of more than 150,000 merchants and payment service providers in over 70 countries.

## MARKETS SERVED

Customers include national chain stores and leaders in online retailing, defense contractors, banks, financial services, non-profits, governments and higher education.

## REPRESENTATIVE CUSTOMERS

Tens of thousands of organizations – from small non-profits to FORTUNE 500 multinationals – rely on ScanAlert to protect, audit and certify the security of their networks and ecommerce infrastructure. Customers include: A&E Television Networks, Ace Hardware, American Red Cross, Fidelity National Financial, General Nutrition Centers, HP, Johnson & Johnson, NIKE, Northrop Grumman, PETCO, Ritz Camera, Sony, The Sports Authority, The World Bank, U-Haul, Visa, Warner Brothers and Yahoo!
